HIGH PERFORMANCE GEAR WITH RPM TECHNOLOGY

The high performance RPM label means that critical seams and logos are sealed, so water can't enter through potential openings.

The high performance RPM MAX label means that 100% of seams and logos are sealed, so water can't enter through potential openings.

RPM & RPM MAX coatings keep wind and air out and still allows perspiration to escape.

HOW TO MEASURE

For best results, have someone else take measurements. Measure body in underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

HEAD
Around your head, from the center of the forehead, above the ears and over the natural bump at the back of the head.

CHEST/BUST
Measure under your arms, around the fullest part of your chest.

WAIST
Measure around your natural waistline, keeping one finger between the tape and body.

HIPS
Across the fullest part of the seat.

INSEAM
Without shoes, from crotch to the floor.

ARM LENGTH
Let hands down the side in a slightly bent position. Measure from center back neck bone, along shoulder point and elbow, to bottom of wrist bone.

GLOVES
Measure palm width.

WHAT CODE REPRESENTS YOUR SIZE?

- Find your size.
- The corresponding code is THE CODE you use to complete the part number on your order. Example: 440 227__90
Size: M = Code 06
Therefore 440 227 06 90

For tall sizes, look for the “T” next to the size. Example: “MT” stands for Medium Tall.

GOES FAR.

XPS - THINK OF IT AS YOUR FIRST LINE OF DEFENSE AGAINST ENGINE AND VEHICLE COMPONENT WEAR.

There's an XPS product that cleans, another that lubricates, or stabilizes, some that cool and yet others that extend life. Some do only one, others more, but whatever they do they do exceptionally well. And they all provide complete peace of mind where it matters most. Out there.

After all, you only get out what you put in... so if you're choosing anything other than XPS, then you're not putting into your vehicle what you expect to get out of it. The absolute best.

XPS. MORE THAN JUST OIL.

THE ONLY OIL ENGINEERED BY BRP FOR THE LEVEL OF PERFORMANCE YOU EXPECT.
